

European Holocaust Research Infrastructure

Karel Berkhoff

NIOD Institute for War, Holocaust and Genocide Studies

Dr. Karel Berkhoff, Scientific Coordinator of EHRI-3, will discuss this project, funded under Horizon 2020, as well as EHRI-PP, which aims to create a permanent legal entity, funded by individual states, that will be operational from 2025. Berkhoff will explain how EHRI's 26 partners from 13 countries are working toward the general objective, to substantially and sustainably advance the integration and opening up of Holocaust archives and collections. The approaches include networking new research and archival communities, expanding EHRI's access programs and user bases, and localisation and capacity building activities.

OstData Concluding Workshop, 15./16. February 2022, online
